

## Welcome to Leagrave Dental Sedation Clinic

Welcome to LDSC. We aim to offer an excellent standard of dental care to all our patients. We treat adults and children and have been established for over fifteen years.

Many people are anxious about visiting the dentist; so we provide a sedation service to our patients and also take referrals from other dental practices over a wide geographical area. We have a special interest in the treatment of children and anxious patients.

For our anxious patients, we provide intravenous sedation or inhalation sedation (happy gas). For patients with needle phobia, we can also provide intranasal sedation. The staff are very experienced in treating patients under sedation.

Our staff undertake regular and on-going training and education to ensure their knowledge and skills are up to current standards. All our clinical staff are trained in Immediate Life Support and Paediatric Immediate Life support.

We have disabled access and a disabled toilet. If you have difficulty with the stairs please let us know when booking your appointment so we can ensure that you are booked in a downstairs surgery for your visit. We also have baby-changing facilities.

It is the responsibility of the patient to arrive on time for their appointment, should you need to cancel please try to give us 48 hours notice. Failure to attend twice or cancelling late may result in you being removed from our patient list.

### Dental Care and Treatment at the Clinic

Our Dentists provide Independent and Private dental care. Independent care is similar in cost to the NHS charges (Band 1 is £20.60, Band 2 is £56.30 and Band 3 is £244.30) and we provide similar guarantees. Not all treatments are covered (See website). Children are seen for free as long as the parents are registered patients.

We provide a full range of dental treatments such as fillings, crowns, bridges and dentures on both independent and private basis. However, some treatments such as dental implants, teeth whitening, bridges, molar root canals and other cosmetic work are only available privately; your dentist will be able to advise you.

Riaz, Puja, Anand and Prem provide routine dental care.

Riaz has completed post-graduate training in Implants (Dip), Prosthetics (MSc), Sedation (Dip) and Oral Surgery (Cert).

Puja has completed her PG Diploma in Endodontics and has an MSc in Dental Public Health.

Anand has completed his Diploma in Sedation and the Tipton Certificate course in Restorative Dentistry.

Karun is a Specialist and provides specialist treatments in Endodontics (root canal treatment), Periodontics (gum treatments), Prosthodontics (Dentures) and Restorative Dentistry (complex restorative treatments).

Paul is experienced in oral implantology and provides full-mouth implants, implant-retained dentures and All-On-4 implants.

We have two oral surgeons who work with us; Waguih and Neeta, who provide minor oral surgery under our NHS contract under sedation or local anaesthesia.

Dr Baker is our qualified and experienced sedationist who is involved in the care of children as well as adults at Leagrave.

Riaz and Anand provide Orthodontics privately using Invisalign and Inman aligners respectively.

We also have an excellent Hygienist 2 days a week, who gently cleans the teeth and will provide you with advice on how best to look after your teeth and gums, and brushing techniques.

### Communication

Good communication with patients is very important to us. The languages spoken at the practice include Hindi, Urdu, Gujarati, Punjabi, Arabic, Afrikaans, German and Hungarian. Please bring someone along to help translate for you if needed. If this is not possible, there is a provision for translation, please inform us in advance. Our practice literature can be printed in other languages if required. Our administration staff are available to answer any questions regarding your appointment prior to treatment.

### Patient confidentiality.

We take patient confidentiality very seriously at Leagrave and all personal information is treated in the strictest confidence. Only members of staff have access to patient information and we have a strict confidentiality policy. We comply with the data protection act & the NHS code of confidentiality.

### Emergency Care

If you have an emergency, we will aim to see you on the same day, although it may not necessarily be with the Dentist that you are registered with.

### Out of Hours Treatment

If you have a genuine dental emergency when the practice is closed, that can't wait until we are open, please telephone NHS Direct on 111, who will direct you to the nearest emergency Dentist (open 8-8, 365 days a year).

### Complaints

We have a complaints procedure so that a complaint, should it arise, will be dealt with efficiently and fairly. Barbara Patrick is our complaints manager.

### Zero tolerance policy

All patients and visitors must treat our staff with respect. Anyone behaving in an unpleasant, aggressive or violent manner will be refused treatment and we may report it to the police.

If this leaflet does not answer all your questions please contact us for further information or consult our website's Frequently Asked Questions (FAQs) section.

## Meet the team
